

## How to Find and Use a Sample Four-Year Plan

1. Download the [Sample Four-Year Plan](#) for your major from the College of Engineering website:  
*For Current Students > Programs of Study (Majors), Minors, Certificates > Click into your Major*

2. Review the information on the Sample Four-Year Plan

*This is the order of courses for a four-year plan of each major as recommended by the departments. Reach out to your advisor to discuss possible changes based on your individual needs.*

**Indicates the semesters the course is offered**

F – Fall  
S – Spring  
F/S – Fall & Spring  
ALL – Fall, Spring, & Summer

**Prerequisite (P)**  
Courses you need to complete PRIOR to taking that course

**Corequisite (C)**  
Courses you need to complete AT THE SAME TIME or PRIOR to taking that course

**ELECTRICAL ENGINEERING: Electrical**  
Department of Electrical and Computer Engineering

**Sequence**

Many courses are sequential in nature, meaning they should be taken in a certain order, paying close attention to prerequisites and corequisites of courses as well as when the courses are offered each academic year.

Look at the prerequisite sequence above starting with ENGR:2120, Engineering Fundamentals II: Circuits in the 3<sup>rd</sup> semester (which has a corequisite of MATH:2560, Engineering Math IV. Notice that some of the courses in the sequence are only offered in certain semesters (ECE:3400 – fall only, ECE:3500 – spring only).
