Workplace Culture Assessment

Culture can make a significant impact on workplace satisfaction, feeling of belonging, and organizational pride among many other things. First, complete the workplace culture assessment on the next page, then answer two of the four questions below. Choose the two questions that are most compelling to you.

- Looking at your top 3 scores, do you believe that the culture styles complement one another or cause friction? Please explain.
- Considering the company's culture, is this organization a good fit for your values personally and professionally? What makes you think that?
- If you were to create your "perfect" organization, what would their Top 3 styles be? Why?
- On the other hand, what cultural styles would you be challenged to work in (list no more than two) and explain.

Response Length and Format: 1 page paper, 11-point font, double spaced. Your response should be thoughtful and complete.
WHAT IS YOUR ORGANIZATION’S CULTURAL PROFILE?

It is important to evaluate your employer’s work culture throughout the duration of your internship or co-op. Organizational culture is complicated as it is rooted in a company's values, goals, employees, etc. Consider how the organization operates, how people behave, and what unifies them. On your own, or with a colleague, rate each statement according to how well it describes the organization.

Add the two ratings in each row and calculate the eight styles. The higher the total, the stronger the culture.

On a scale of 1-5, rate how well each of these statements describes your organization:

1 = Not at all well     2 = Not very well     3 = somewhat well     4 = Very well     5 = Extremely well
