

**IOWA**

# **NEW COURSE FOR SPRING 2024!**

**CBE:5466 (T/Th 12:30-1:45)**

**Explore optical components** like lenses, mirrors, and fiber optics, along with optical assemblies including beam expanders and interferometers! Learn to use metrology equipment for assessment and alignment. The course includes lectures and hands-on lab work to focus on the **practical handling of optics and understanding the assembly of sensing instruments.**
